VACUOGRIP

- k dispozici s pěnou nebo přísavkami

POPIS PRODUKTU

PACK PK2_ and PK4.
Powerful warning light to warn the operator of a power failure.

PACK PK1.
Control panel including the Pick up / Release buttons as well as safety buttons.

PACK PK3.
For applications that require remote control of the lifting device, the PK3 PACK provides a control box that can be removed and integrated into the handrail, which includes the Pick up / Release controls and a 4 m long cable sheath.

SPRING SYSTEMS
To guarantee that all the suction cups come into contact with the load, VACUOGRIP units are equipped with spring systems as standard.

SUCTION CUPS
The suction cups are made of nitrile, which guarantees that handled loads won't be damaged and also offers excellent resistance to hydrocarbons (oil).

1/4 TURN VALVE
For applications requiring frequent formal changes, the VACUOGRIP lifting device can be equipped with 1/4 turn shut valves on each suction cup.

OPTIONS: INTEGRATION OF ELECTRIC HOIST CONTROLS
