POPIS PRODUKTU

GO Versions

(with external vacuum generator)

The Coval CVG6 series vacuum grippers, G0 version (with external vacuum generator), can be mounted on all types of automated or robotic systems. They can be easily installed (via M8 screws) with the included rectangular nuts, sliding in the grooves of the aluminium profile. These nuts are equipped with a spring plate to hold them in position when unscrewing.

- CVGL 424 and 624 : 4 x M8 rectangular nuts.
- CVGL 824 : 6 x M8 rectangular nuts.

- CPU: 840, 6 x 400 Rectangular pins.

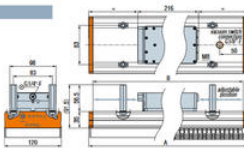

E1 or E2 Versions

(1 integrated vacuum generator, CMSI series).

The Coval CV02, series vacuum grippers, E1 and E2 versions, are mounted on all types of automated systems via M8 spacers pre-installed on sliding nuts.

- CVGL 424 and 624 : 4 x M8 spacers.
- CVGL 824 : 8 x M8 spacers.

- CVU2, 824 : 8 x M3 spacers.

E3 Versions

(2 integrated vacuum generators, CMSI, series).

■ CVGL 824 : 6 x M8 spacers.
